

Avoiding Danger-REALTOR Safety Tips

Safety at Property Showings

Tip 1

When you have a new client, ask him/her to stop by your office and complete a Prospect Identification form, preferably in the presence of an associate. Get the client's car make and license number. Photocopy the driver's license. Retain this information at your office.

Tip 2

Call references and verify employment and current address.

Tip 3

Introduce the prospect to someone in your office. A would-be assailant does not like to be noticed or receive exposure, knowing a person could pick him/her out of a police lineup.

Awareness.

The key to staying safe.
